Three of the ten imported females to be sold in this sale. Left to right, Burnton Clipper Cora and Burnton Princess Audrey, both by Calrossie Crocus Count; Duncerahill Broadhooks 3rd by Chapelton Bonaparte.

On the front cover —

Four of the eight sons of Kinellar. Novelist, selling in this sale. Left to right, Aberfeldy Ambassador; Aberfeldy Air Pilot; Aberfeldy Archduke; & Aberfeldy Autocrat.

Early in 1958 we decided to pass plans for our annual sale, so that in 1959 we could come out with an offering that would surpass all that preceded it. With two crops of heifers to draw from, we selected the best thirty. Along with these we have included ten heifers imported in 1958. Better pedigrees and individuals are not often for sale.

1958 was one of the best years in our history. Some of the top breeders on the continent placed their herds in the hands of an Aberfeldy bull. To merit the confidence our customers have placed in our cattle, we are endeavouring to keep pace by offering the best selection of bulls in our history. The first sons of Kinellar Novelist sell this year. To prove them, six of the eight have been placed on the Advanced Registry test. Their performance to date has been very gratifying. To supplement this group, we are selling the best imported bull we have ever offered, Naemoor Barbican, and two sons of Calrossie Forward March.

Whether you are interested in buying or not, we hope you will be with us. We are holding an open house at Aberfeldy the evening before the sale to which you are all most cordially invited.

Reford W. Gardhouse

Should buyers from the United States purchase any of the imported animals, it will be their responsibility to pay this fee. All Aberfeldy animals can be recorded at regular fees, as the fees on their imported sires and dams have been or will be paid.

Getting Your Cattle Home

We will always be happy to cooperate with you in helping you to get your cattle home at the least cost to you. Generally speaking, cattle move from Ontario in sufficient numbers at most any time of the year, so that it is possible for you to ship in a group most of the way home. We will be willing to hold purchases until The Royal Winter Fair or the International.

For his 1959 sale, Reford Gardhouse has put together the strongest offering he has ever brought forward — and those who have attended his past sales will recognize this as no small accomplishment. As one views this sale offering, it is apparent he has pointed for 1959.

The imported Naemoor Barbican is one of the most impressive bulls to come across the water in a long time — let alone be offered at auction.

The eight burly, rugged, good doing sons of Kinellar Novelist selling leave no doubt that he is an outstanding sire. This son of Gallant Marshall is a half brother to many famous bulls, including Banchory Orangeman, the bull selected for outcross in the Calrossie herd, and the top averaging sire at Perth this year. The sale of these bulls provides the same outcross for North American breeders, as is proving so successful at Calrossie.

The ten imported cows are real standouts. They add cream to an already sweet female offering. Aberfeldy follows a slightly different female replacement program. Herd replacements are generally selected from the best available in Scotland. Therefore, the best Aberfeldy productions are not topped off and reserved for the herd. This immediately adds quality to any offering. The fact no Aberfeldy sale was held last year, puts them in an extremely strong position to be loaded with good ones this year.

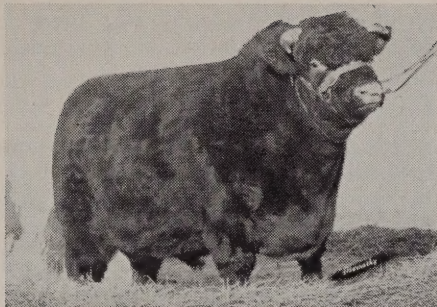

In the business of improving your herd, there is no substitute for getting around. Staying home and wishing won't get the job done. If you are busy and can attend sales only occasionally, you can be sure your decision to go to Aberfeldy this year is a choice well made.

KINELLAR NOVELIST

Kinellar Novelist (imp.) — Placed second at Perth where he was purchased for use at Aberfeldy. His first crop of calves are being presented for public approval in this sale. You will agree they are the most uniform group ever produced at Aberfeldy. All are solid dark colors with the same pattern of quality throughout. They are short-legged, rugged, heavy boned bulls with thickness and substance and the doing ability that is so hard to get. Most of his sons to date have been on test under the Advanced Registry Program of the Province. They not only have the type and quality, but we are pleased with their performance on test. A complete report will be available sale day.

Gallant Marshal — Sired nine bulls that made the enviable record at Perth, 1956. They won three first prizes, reserve senior champion, reserve junior champion and all championship groups. Nine sons averaged 2911 guineas. Among them were Kinellar Napoleon (8,500 gns. to Acadia); Kinellar Nigel (6,500 gns. to Ballathie); Tradlin Bulldozer (3,800 gns. to Drynie); Kinellar Nedtung (5,400 gns. to Argentine); Tradlin Gold Dust (1700 gns. to Wester Moy); Tradlin Bertie (5,000 gns. to Bapton). His first eight sons calved at Aberfeldy sell, along with his first daughter.

Kinellar Novelist was purchased as a complete outcross and is doing a great job. Our last three bulls — Kair Ambition, Calrossie Forward March, and Calrossie Klondike — have provided a strong infusion of Calrossie Welcome and Kirkton Baronet blood. Thus, we have naturally watched the results of the use of Banchory Orangeman, also a son of Gallant Marshal, in the Calrossie herd. At the 1959 Perth sale, Banchory Orangeman calves achieved the top average for one sire.

Those considering their next step forward in herd bull selection will do well to study the eight sons of Kinellar Novelist selling in this sale.

SELECTED TO PERPETUATE THE BLOOD OF HIS SIRE IN THE ABERFELDY HERD

Performance Testing . . .

ABERFELDY AUTOCRAT, Lot 5.

We consider Performance Testing one of the valuable tools in breeding improved registered cattle — the kind of cattle that will prove the most profitable for our customers. Since the advent of Performance Testing in Ontario, the Aberfeldy herd has been an enthusiastic cooperator with the Department of Agriculture and the Ontario Agricultural College.

Various states and provinces have had their own system of testing and appraising the variables. Here in Canada, the Canadian Shorthorn Breeders' Association, is pioneering a plan to qualify cattle for a higher degree of registry — Advanced Registry. Important among the qualifications are records for Average Daily Gain (A.D.G.) and Average Lifetime Gain (A.L.G.). Most of the bulls dropped at Aberfeldy and selling in this sale have been on Advanced Registry tests. The results of their gains will be announced on sale day.

One thing is certain. Accurate valuation of an animal's ability to gain cannot be learned by simple visual appraisal. We feel the records of these tests will prove helpful to those selecting a bull — and we know it will be valuable in appraising the worth of the Aberfeldy stock bulls, members of the cow herd, so that we will have a further measure of determining the extent to which we should perpetuate any bloodline.

Naemoor Barbican, Lot 1.

Naemoor Barbican (imp.) — Placed second in his class to the Supreme Champion of the Show Perth, 1959.

Bapton Controller — Was Supreme Champion Perth, 1957 and member of the best Get-of-Sire and winning groups by Bapton Aurora.

Naemoor Buttercup Denise — By Calrossie Defiance (full brother to Calrossie Paramount and Calrossie Armada) costing 4,000 guineas Perth, 1954.

This bull has been used heavily since his arrival at the farm in May. A number of sale females carry his service. Naemoor Barbican sells, but we retain the right to use the frozen semen stored from him. This is an outstanding individual and, if fitted, would be hard to beat in the show ring. Along with this, his background is difficult to improve upon. A rare opportunity to buy one of the tops out of Perth this year.

The Imported Females . . .

Six of the ten imported females selling in this sale. Left to right, Rothes Florid, Lot 15; Duncrahill Broadhooks 3rd, Lot 22; Burnton Princess Audrey, Lot 19; Burnton Clipper Cora, Lot 18; Crocus Carrie, Lot 17; and Burnton Princess Nina, Lot 20.

At Aberfeldy we have had great success with the use of imported cattle. Fifty-four of the sixty-two females in the brood cow herd are imported. The first trip to Scotland to buy foundation females was made about fourteen years ago. There have been a lot of voyages since then. We believe the experience gained is valuable both to ourselves in improving our own cattle — and to others.

Really outstanding females are not easy to find in Scotland — or anywhere else — and when you do find them, often they are not for sale. For these reasons, and because we had a great group of heifers coming on here at home, we did not plan this sale with the idea of selling a huge number of imported females.

Instead, we are content to offer the ten best imported cows we have ever sold — along with thirty-two raised here at Aberfeldy, all by our imported bulls, and practically every one out of imported dams.

Calrossie Beauty Pet, Lot 13.

Calrossie Beauty Pet (imp.) — Just as good as her picture, and the kind you can seldom buy in Scotland.

Bapton Balmoral — Purchased at 5400 guineas in the Millhills Dispersal. Used extensively in the Calrossie Herd. His sire, Cruggleton Balmoral made a great reputation as a sire in the Chapelton herd. His dam is a full sister to Erimus Emeritus, the famous sire at Westdrums.

Calrossie Beauty — A daughter of Calrossie Hyperbole we are proud to own. See her in our breeding herd.

It makes a difference from whom you buy...

When you invest your dollars in herd improvement, there is an important intangible often overlooked. That is the judgement of the man from whom you buy. It is his careful judgement and knowledge that makes the difference between a highly profitable and a mediocre purchase for you.

Reford Gardhouse has twice been selected by The Scottish Shorthorn Breeders' Association to judge the Perth Show and Sale (1952 and 1958). His decisions were acclaimed by one and all, his judgement backed up by the prices and further justified by the breeding record of his champions and top prize winners.

Your purchases in the Aberfeldy sale are backed by double judgement. First, that of Reford Gardhouse in the assembly, selection and breeding of the offering. Secondly, your own judgement from this fine group as to just which individuals fit your needs.

Reford Gardhouse, judge of the 1952 Perth, Scotland show and sale, is shown congratulating Captain John MacGillivray, Calrossie, leading winner at Perth that year.
